## SWEBOK STRUCTURE, main processes

## IEEE

## Computer Society

Software requirements	Software design	Software contractions	Software Testing	Software maintenance
Requirements fundamentals	Design fundamentals	Software contractions fundamentals	Software testing fundamentals	Software maintenance fundamentals
Requirements process	Key issues in software design	Managing constructions	Test levels	Key issues in software maintenance
Requirements ellocation	Software structure and architecture	Practical considerations	Test techniques	Maintenance process
Requirements analyses	Design quality analyses and evaluation		Test related messures	Techniques for maintenance
Requirements specification	Design notations		Test processes	
Requirements validation	Design strategy and methods
